

*Make the grade with*

# **InteGrade<sup>®</sup> Pro** software

**Fast, effective web-based teacher gradebook**

# InteGrade®

Web-based teacher gradebook  
making the grade has never been

NEW!

## Improve Classroom Management

### Save time for teaching.

InteGrade® Pro software can save you time—time you can devote to creative teaching or for individualized instruction. Input scores at your convenience—InteGrade Pro calculates the grades automatically. Grades will always be at the ready, and you'll always be prepared to respond to students, deal with parent-teacher conferences, or submit mid-term or end-of-period grades.

### Analyze student performance and review the effectiveness of your assignments with customizable reports.

- **Class Roster:** Tracks scores, attendance, lunch money, and more.
- **Missing Tasks:** Displays a list of all tasks for which individual students received an empty score or a Zero, Excused, or Incomplete grade—and allows you to print a report requiring parent and/or teacher signature.
- **Student Demographics:** Provides student demographic information.
- **Student Progress:** Demonstrates student academic progress in the course, including individual scores, class average for each task, and missing tasks for each student. Includes a graphical grade analysis.
- **E-mail Progress:** Allows teachers to send e-mail progress reports on a per-student, per-class basis to an unlimited number of recipients.

- **Seating Chart:** Creates printable class seating charts for each class taught.
- **Student Attendance:** Totals absences and tardies for individual students on specified dates.
- **Multi-Class:** Lists all students and all classes in your gradebook, creates lists of assigned and missing tasks for each class, and provides a graphic depiction of each student's performance.

## Motivate Student Achievement

### Show students exactly what grade they're getting and exactly why they're getting it—at any time.

Use InteGrade Pro software to produce a complete list of a student's scores and missing assignments and to calculate up-to-the-minute grades. Keep your class on track by posting class performance on homework, quizzes, and exams.

With InteGrade Pro software you can even demonstrate hypothetical situations by plugging in a provisional score for a missing assignment. Or temporarily raise scores for completed assignments and show your students how they could vault ahead.

InteGrade Pro software also makes it easy to adjust results by curving all scores, dropping the lowest score, or emphasizing the top score—and you can see the adjusted grades instantly.

Now you can  
access InteGrade Pro  
gradebook files  
anywhere, anytime  
—online!

InteGrade Pro gradebook files can now be accessed via the World Wide Web, so you can update your gradebook anywhere and anytime you have access to the Internet. Since all data resides in a single file, you'll always have access to the most up-to-date information. NCS Pearson is also extending this powerful new functionality to current InteGrade Pro customers with active support agreements, so you won't be left behind if you already use InteGrade Pro software.

### Cross-platform functionality offers maximum flexibility.

InteGrade Pro gradebook software is a cross-platform program able to run on Microsoft® Windows® and Macintosh® operating systems, so you can update gradebook files without logging on to the Internet—even if you have a Macintosh at work and a Windows computer at home.

# Pro

so easy.

## Streamline Student Information Management

**Easy and effective data entry via integration with your school administration system.**

InteGrade Pro is part of NCS Pearson's *xp series*™ solution suite, a series of integrated offerings featuring the SASixp™ student administration system. *xp series* solutions work together to streamline your school's administrative tasks. InteGrade Pro gradebook and SASixp software share data—saving you time and money by eliminating duplicate data entry and ensuring that data is both accurate and up to date. InteGrade Pro software also exchanges data with other NCS Pearson student information systems, including SASI™ III, The School System (TSS™), CIMS® and CIMS® G/T student software, OSIRIS®, OSIRIS for Elementary Schools™, and The Elementary School System (TESS™). And InteGrade Pro can also be used with import/export routines to stay synchronized with non-NCS Pearson student information systems.

Due Date	Task Name	Due Of Row	Scale Factor	Class Avg [%]
1998/03/06	I, Robot Quiz (Asimov)	14.0	1.0	69.2
1998/03/18	Asimov Exam	32.0	1.0	68.8
1998/03/27	Shakespeare/Asimov Compared	50.0	1.0	61.7
1998/04/03	Alice in Wonderland Quiz	15.0	1.0	68.2

  

Student Number	Student Name	I, Robot Quiz (Asimov)	Asimov Exam	Shakespeare/Compred	Alice in Wonderland Quiz	%	Letter Grade
1 948311	Churchill, Darwin	7.5	18.0	22.5	Away	46.3	D

## Training OnLine for InteGrade Pro teacher gradebook—training when you need it!

NCS Pearson now offers Training OnLine for InteGrade Pro software—a convenient, web-based training method that will have teachers using the InteGrade Pro teacher gradebook in no time. Training OnLine for InteGrade Pro software is available online or via CD-ROM.

## Involve parents with ParentCONNECTxp™.

Using data from other *xp series* offerings—including InteGrade Pro teacher gradebook, SASixp student administration system, and NCS ABACUSxp™ instructional management system—ParentCONNECTxp™ software allows parents to keep track of their children's academic progress online via an easy-to-use, intuitive web site customized for your

school. Parents may visit the password-protected site to review grades, discipline issues, class assignments, daily or period attendance, skill mastery, school announcements—and even communicate to teachers via e-mail.

*"We had a lot of teachers who'd never touched a computer before, because they felt they didn't need to. When InteGrade Pro was installed, they immediately saw the benefits it provided and asked, 'How do I load this program? When can I start using it?' It's really kind of contagious."*

— John Kidney  
Director of Technology  
Webster City Community School District  
Webster City, Iowa

# InteGrade<sup>®</sup> Pro

Web-based gradebook software

## Features

- **Web version:** Permits Internet access to a single gradebook file from any computer with an Internet connection, making it easy to keep grade information current.
- **Cross-platform data compatibility:** Allows use on Microsoft<sup>®</sup> Windows<sup>®</sup> and Macintosh<sup>®</sup> operating systems.
- **Simplified file handling:** Stores all classes taught in a single gradebook file.
- **Multiple spreadsheets:** Creates as many spreadsheets per class as needed.
- **Fast, flexible class viewers:** Allows instant access to any spreadsheet for any class.
- **Student data:** Records demographic data for each student.
- **Notes:** Associates notes with students, tasks, scores, spreadsheets, and even the class itself.
- **Task-type sets:** Groups task type by subject matter.
- **Non-numeric grading:** Tracks skills and other non-numeric grading.
- **Clear labels:** Customizes extra field titles for students and tasks.
- **Attendance:** Records attendance by clicking on a graphical seating chart featuring student pictures.
- **Administrative Control:** Allows administrators to control gradebook fields, including Advanced Fields, Student Demographics, and Task Type Sets.
- **Scanning integration:** Retrieves data directly from NCS Pearson and other scanners.
- **Add template gradebook functionality:** Imports class roster files, including pre-configured template settings.
- **New Task shortcut:** Streamlines the process for adding multiple new tasks.

## System Requirements

### Microsoft<sup>®</sup> Windows<sup>®</sup> systems

- Microsoft<sup>®</sup> Windows<sup>®</sup> 95, 98, 2000, or NT<sup>®</sup> operating system
- 20MB free hard disk space
- 32-64MB RAM

*Note: Windows 95 systems must be at Winsock 2 or above.*

### Macintosh<sup>®</sup> system

- Mac<sup>®</sup> OS 7.5 or higher
- 20MB free hard disk space
- 32MB RAM
- Foreign file access
- ISO 9660 file access

### Web system requirements

- Intel<sup>®</sup> Pentium<sup>®</sup> 450 or above (Intel Pentium 800 recommended for schools serving more than 70 teachers)
- Network card appropriate for the site
- 500MB free hard disk space plus 5MB free disk space for each gradebook
- 4X or above CD drive
- 256MB RAM

### Browsers

- Netscape Navigator<sup>®</sup> 4.08 or higher
- Microsoft<sup>®</sup> Internet Explorer 5.5 or higher

## Support Options

NCS Pearson offers a variety of technical support services to customers who have an active maintenance agreement.

- ✓ Toll-free telephone support
- ✓ CUSTOMER LINK<sup>™</sup> bulletin board online technical information and support
- ✓ Fax support

## NCS Pearson *xp series*<sup>™</sup> software solutions include:

### Student Information Management

- SASI<sup>™</sup> and SASI<sup>™</sup> III student administration systems

### Instructional Management

- NCS ABACUS<sup>™</sup> instructional management system
- MCAD<sup>™</sup> Model Curriculum and Assessment Database
- Educational Structures<sup>™</sup> custom Internet curriculum

### Classroom Management

- InteGrade<sup>®</sup> Pro web-based teacher gradebook
- TeacherCONNECT<sup>™</sup> wireless classroom management software

### Parent Communication

- ParentCONNECT<sup>™</sup> online home-to-school communication tool
